

MALTAWARD

M.A.S.S. Safety Barriers

SPECIFICATION SHEET

This flexible solution is simple to install, offers an anti-vandalism design and is highly visible. The MASS base unit is a steel barrier consisting of hot dip galvanised elements, powder coated in highly visible Red and White. Each individual base unit links together via vertical pins and the various MASS top sections can be added according to the specifications of the job.

MALTAWARD

M.A.S.S Safety Barriers

Flexible solutions

The MASS base unit is a steel barrier consisting of hot dip galvanised elements, powder coated in highly visible safety colours. Individual base units are 150 cm long x 50 cm wide x 42 cm high and weigh 48 kg. Each unit links together via vertical pins. There are various MASS top sections which can be added as specific jobs demand. Specially adapted units enable the system to rotate through 180°.

Simple installation

MASS is extremely quick and easy to assemble due to its unique plug-in section. Maximum safety is achieved together with a minimum of traffic-flow disruption during the assembly period. Assembly, dismantling and repositioning requires minimal time.

Non-permanent fixing

The high visibility base units are mounted unfixed to the road, with an anchorage at the terminal sections only. Terminal anchorage is achieved with a steel buffer filled with sandbags. No coring or drilling into the road is necessary.

Increased pedestrian safety

- Anti-vandalism design
- Accommodates 90° bends
- High visibility• Anti-climb fencing
- Simple assembly

MALTAWARD

M.A.S.S Safety Barriers

MASS 1

MASS 1 is a high visibility safety solution and ensures a stable secure connection.

Pedestrian Guard

Pedestrian Guard is a development of the 1 vehicle restraint system which is tested to current European Standards and is a cost-effective solution to improving public safety.

Visirail Guard

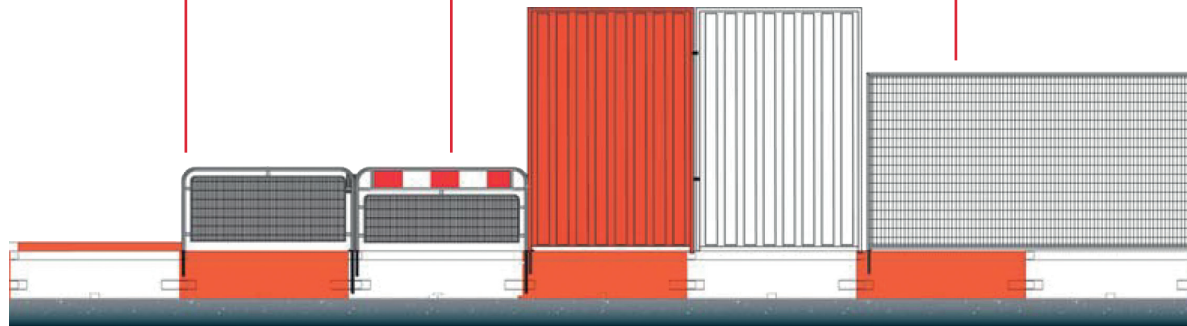

This product combines the benefits of Pedestrian Guard with a high visibility steel security rail. Complying with chapter 8 of the Traffic Sign Manual, Visirail Guard has minimal wind loading and is vandal-proof.

Screenguard

A hoarding panel for use on worksites where privacy is required. The high steel screen offers security combined with easy assembly in a range of situations

Siteguard

This is an anti-climb, galvanised mesh fencing. Siteguard offers high security for the site, workers and equipment. Gates are also available.
