

MALTAWARD

CCTV Tower Systems

SPECIFICATION SHEET

Maltaward offers CCTV towers as a security solution for vacant properties. Complementing our range of concrete barriers and void property security solutions, our CCTV systems help to deter intruders as well as preventing theft and vandalism. Our systems feature automatic detection of intruders or attempted theft, with cameras deploying automated sirens and voice-warnings. The cameras are remotely monitored so that security can be dispatched to the site as soon as possible.

MALTAWARD

CCTV Tower Systems

Currently a 6-metre CCTV tower system is a popular choice. Easily transported and quickly deployed, the tower is perfect for vacant property and construction sites that require remote monitoring. Available with either high capacity batteries (with up to 4 weeks operating time), or indefinite use with solar panel or mains power.

Some of the key features of a CCTV Tower include:

- HD cameras
- Automatic video recording, pre-recorded voice warning and siren
- 6m extendible mast to suit sites of all sizes
- The option for battery-powered, integrated solar panels or mains power
- Fast deployment

CCTV Frequently Asked Questions

Why do I need CCTV monitoring?

Vacant property can be easy targets to trespassing from intruders and are often vulnerable to high volume fly tipping. Construction sites can have high value equipment and materials unsupervised whilst the site is closed. A CCTV camera system can monitor your site to deter intruders and dispatch security when necessary.

Can Maltaward provide a full range of services alongside CCTV?

Yes. Maltaward specialises in supplying a full range of perimeter and site security solutions ranging from barriers and gates to window screens and security doors.

Which CCTV solution is right for my site?

We offer both wireless cameras and CCTV towers. The right choice for your site will depend on your needs and requirements. Our team of professionals can provide you with advice and guidance.

Where should I site CCTV cameras?

Tower CCTV can be placed in a position that allows for the best vantage point for the largest area of the site. Wireless cameras can be placed anywhere across your property. Our team can offer suggestions for the most effective positioning of CCTV.
