Whether you are hosting a corporate event or a private event, security and safety is essential. Maltaward can provide secure marquee blocks that can be used for a multitude of purposes to ensure the safety of your marquee.

Our Marquee and Kentledge Blocks come in a variety of sizes.

MALTAWARD

Marquee Weights and Kentledge Blocks

Our marquee weights are versatile and can secure any structure and can be used indoors or outdoors, on soft ground or on hard ground that cannot be staked.

Our Kentledge blocks, from the old French Quintelage used to describe the pig iron ballast in ships, are available in two sizes 500kg and 1000kg. Today, they can be put to a variety of uses such as stabilisation for hoarding and fences, to providing anchorage for scaffolds and stage rigging or counterweights for cranes. Of course, they provide excellent ballast for marquees, gazebos and tents plus ballast for the odd ship or two if necessary.

Get in touch with our expert team today to discuss your specific requirements, or email for a free quote.

Our 1 tonne Marquee blocks come with eye bolts at the top to ensure that the marquees are safely and easily secured down and are manufactured with precast forklift slots in the base for easy lifting by fork lift.

Specifically designed for the purpose, their shape and weight make them reliable and sturdy giving you confidence that your marquee will remain secure.
